AGF Mortgage is a superb mortgage company. I've used Golum Ferdowsi multiple times when purchasing a house and he is very helpful and will do anything he can to get you the loan you need. He is very knowledgeable and will find the best rates available. With his advice and professionalism, he helped make sure I was making the right decisions for me. I was so incredibly lucky to be connected with AGF and Golum. It is hard these days to find patient, caring, and professional people who help get the best for you. I strongly recommend AGF Mortgage!

After already having experience with other mortgage brokers, I have found that Golam Ferdowsi has outperformed the rest. Soon after being told that something in my past taxes was going to make refinance difficult, etc., I was happy to find that Golam quickly and easily closed my refinance at a better rate than I had been quoted over all! AGF mortgage obviously works hard, fast, and efficiently for their clients! I couldn't have been more satisfied. Thanks Golam!! -Desiree

AGF Mortgage provides exceptional service. They completed one mortgage and three refinancings for me. Golum Ferdowsi worked tirelessly through the requirements and bank requests to get my deals done at the least cost and best rate. In the future, I plan to only use AGF Mortgage for financing my personal and investment properties.

It is a pleasure to work with AGF Mortgage! We have worked with Golum several times over the last 7 years and each time the process has been smooth and painless. He is extremely polite and professional while working to get the best rates for his clients.
